Suggestions

- ◆ You need to improve your enthusiasm level, which is lacking. This will help you to achieve your goals much faster.
- ◆ Try to forget the incident which has developed resentment, or stop resenting about it. Resentment is a disturbing trait, which will effect your thinking and may disturb your daily life.
- ◆ Have an open mind toward new ideas and not be stubborn. Your combination of strong ambition, will-power, determination, self-confidence is great, if you are open to new ideas, it will surely help to boost your career & personal life.
- ◆ In order to improve enthusiasm & reduce resentment, we would suggest some simple changes in the strokes of your handwriting. This we will discuss in details on phone/mail after you go through this report.
- ◆ These simple changes may be practiced by you for 3-4 weeks & we are sure that you will feel and experience the change in yourself!
